

Hat Proto

SKU:U060

Description

Hat Proto is a universal board compatible with StickC, allowing you to freely design circuits on the board. If you plan to add simple circuits to your design and provide it with a reliable protective case, **Hat Proto** is a great choice.

Features

- Hole size: 0.039" 1mm (CNC process)
- Hole spacing: 0.1 in - (2.54 mm)
- Number of board holes: 40 Holes

Includes

- 1 x Hat Proto
- 1 x Double-Sided Tape

Applications

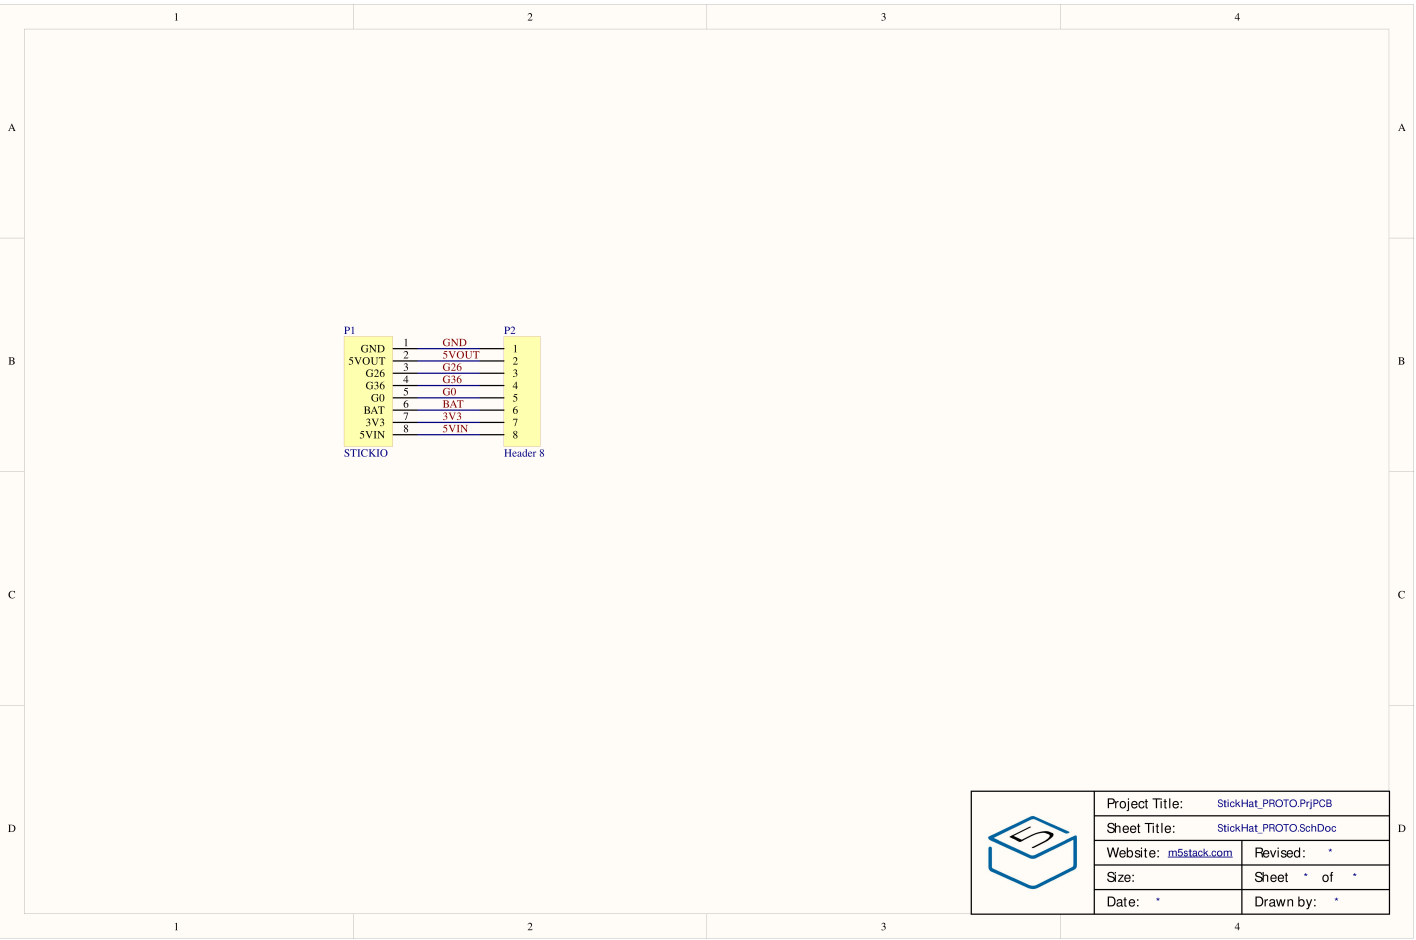

- Circuit prototyping

Specifications

Specification	Parameter
Product Size	35.0 x 24.0 x 13.7mm
Product Weight	5.5g
Package Size	138.0 x 93.0 x 14.7mm
Gross Weight	13.0g
