

Unit GPS SMA

SKU:U190

Description

Unit GPS SMA is a GNSS global positioning and navigation unit that integrates the high-performance ATGM336H navigation module from CASIC, using the AT6668 chipset, paired with an active external antenna to provide more accurate and reliable satellite positioning services. Compared to previous products, the AT6668 supports multi-frequency and multi-mode GNSS signal reception, capable of receiving signals from multiple satellite navigation systems (including GPS, BD2, BD3, GLONASS, GALILEO, and QZSS), supporting multi-system joint positioning and single-system independent positioning, with stronger anti-interference capabilities and higher positioning accuracy. In areas with weak signals, it can quickly obtain higher precision location information. This module is suitable for high-precision positioning applications such as vehicle positioning and navigation, IoT positioning devices, etc.

| Features

- Supports multiple satellite navigation systems (GPS/QZSS/BD2/BD3/GAL/GLO)
- Multi-frequency and multi-system reception
- Multi-channel
- External active antenna
- 2 x LEGO-compatible holes
- Programming platforms: Arduino, UIFlow, ESP-IDF, etc.

| Includes

- 1 x Unit GPS SMA
- 1 x HY2.0-4P Grove cable (20cm)
- 1 x Active external antenna

| Applications

- Vehicle positioning and navigation
- Wearable devices
- IoT positioning devices
- Drones
- Portable devices
- Bus stop announcements

| Specifications

Specification	Parameter
SoC	AT6668
Supported Satellite Systems	GPS/QZSS/BD2/BD3/GAL/GLO Frequencies: BDS: B1I+B1C GPS/QZSS/SBAS: L1 GALILEO: E1 GLONASS: R1
Channels	50 channels
Communication	UART communication, default 115200bps@8N1
Positioning Accuracy	<1.5m (CEP50)
Positioning Update Rate	Up to 10Hz
Protocol	NMEA0183 4.1
Sensitivity	Tracking: -162dBm, Acquisition: -160dBm, Cold Start: -148dBm
Start Time	Cold Start: 23 seconds, Hot Start: 1 second
Antenna	SMA active external antenna (internal screw, internal pin), Gain: 30DBI, Frequency: 1555MHz~1580MHz, Length: 1m, Size: 38 x 36 x 13mm
Power Consumption	Standby: DC 5V/31.64mA Operating: DC 5V/40.90mA
Product Size	71.4 x 24.0 x 8.0mm
Product Weight	11.4g
Package Size	170.0 x 120.0 x 9.0mm
Gross Weight	55.1g
